### EXPERIENCE.

#### JUNIOR CREATIVE DESIGNER

AVECHI.COM | FEB 2018 - TO DATE

Avechi.com being an E-commerce company, I do the following tasks:

- Creating new graphics (images, Banners, motion videos) for the e-commerce web platform and social media. Whereby I used Adobe Photoshop.
- Design Campaigns Pages, flyers and banners and Adverts for Season Sales such as Black Friday, Easter and Christmas. Whereby I used tools such as Microsoft Visio to come up with sketches and line diagrams and Adobe photoshop for the final design.
- Handling and managing Avechi.com social Media platforms. Whereby I come up with unique designs for product that are posted on daily basis.
- Coming up with unique designs, content and sending out email newsletters which are sent out thrice a week.
- Guiding and overseeing other graphic design interns. This include delegating duties, checking and approving designs as well as and advising on better ways to create designs.

#### TELECOMMUNICATION TRAINEE

SEACOM | MAY 2015 - AUG 2015

During the period, I did the following tasks and gained the necessary experience

- I worked on a high level to generate Map Layout for the fiber route between Mombasa and Nairobi using Google earth, Google Maps and generating .kmz and kml files .
- Also we worked with Internet service providers to confirm and check out their fiber route diagrams.
- Worked with IP equipment this include Routers and Switches from CISCO and Junipers Networks, for example the cisco 3800 ,12000 series of switches and the Juniper Ex4550.
- I did Routine maintenance on Network Transmission Equipment such as the SDH, DWDM, SLTEs, which were from Huawei, Ciena and Teams NMS. Here I did daily routine checks, making back-ups, checking and recording the extent of faults.
- I did network troubleshooting where we would check on loss of signal, checking power levels, cleaning, extending and patching of fiber optics cable. I also worked with test gears such as the OLTs and OtDr.
- Worked with Air conditioning Systems HVAC, fire alarm systems as well as the Ip Camera systems, where I performed routine maintenance.
- Generator routine checks, where I checked on the generator man hours, starter battery, oil levels and performing first line checks.
- Consumer Power from the Kenya Power where we checked on power utilization daily, to analyzing the cost and consumption.

### EDUCATION.

- **BSC. MATHEMATICS AND COMPUTER SCIENCE**  
JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY | SEP. 2013 - NOV. 2018
- **KENYA CERTIFICATE OF SECONDARY EDUCATION**  
NYANG'ORI BOYS HIGH SCHOOL | 2009 - 2012  
A-(MINUS)
- **KENYA CERTIFICATE OF PRIMARY EDUCATION**  
HAMBALE PRIMARY SCHOOL |2008  
389 / 500 MARKS

### SKILLS & ATTRIBUTES.

Graphic Design	<div><div></div></div>
Digital Marketing	<div><div></div></div>
Motion Graphics	<div><div></div></div>
System Administration	<div><div></div></div>
Cloud Computing	<div><div></div></div>

### PLATFORMS.

- **DESIGN**
  - I'm competent with using Microsoft Visio and Balsamiq when for creating sketches and wireframes that I use in the early stages of design to make presentations to client on how the outline of the design will look like. I also use the wireframe as a guide while working on the final design.
  - I'm well versed with design tools such as Adobe Photoshop and Adobe Illustrator . I use this tools to come up with unique and high quality design. You can have a look at my graphic design portfolio on Behance profile [www.behance.net/r3in3r](http://www.behance.net/r3in3r)  
Instagram profile [www.instagram.com/r3in3r\\_/](http://www.instagram.com/r3in3r_/)
  - Also have an understanding of 3D and motion graphics Using Cinema 4D and Adobe After Effects.
- **CLOUD COMPUTING AND SYSTEM ADMINISTRATION**
  - I'm well knowledgeable on Cloud computing technologies namely Amazon AWS, Microsoft Azure and Google cloud Platform.
  - Here, I have experience with Elastic Computing, where I deploy and manage servers so as they can auto-scale depending on usage, creating and managing Virtual Private Cloud, Cloud Storage, Security Identity management whereby I manage cloud users and their permissions, and Cost and Budget management of the Cloud Computing where I monitor cloud resources to make sure they are properly used in order to avoid unnecessary costs
  - I'm capable of designing and maintaining a Local Area Network, managing Linux and Windows Servers as well as Desktop computers.
- **DIGITAL MARKETING**
  - I'm well versed with marketing and digital marketing using twitter, Google, Instagram, and YouTube. Where I'm able to handle and manage corporate and personal accounts.
  - Designing, optimizing and running of digital Ads using both Google and Facebook Ads
